RUTH SAGER, Ph.D.  
CHIEF, DIVISION OF GENETICS  
617-732-3380

PROFESSOR OF CELLULAR GENETICS  
DEPARTMENT OF MICROBIOLOGY  
AND MOLECULAR GENETICS

December 12, 1979

Dr. Joshua Lederberg  
President  
The Rockefeller University  
York Avenue and 66th Street  
New York, New York 10021

Dear Josh:

It was great to re-establish contact with you after all these years. I wish first to congratulate you not only on the Rockefeller appointment, but also on your appointment as Chairman of the Presidents Cancer Panel. The cancer field needs a strong advocate for basic research, and I have great confidence in your understanding of the problem, and in your abilities as a powerful advocate.

Art Pardee and I were wondering if you would be interested in visiting the Sidney Farber Cancer Institute, and if so, how we might facilitate your visit. Several options come to mind. The visit could be as formal or informal, as structured or not as you wish, could include discussions with individuals and/or groups, depending upon your interests, and of course a seminar could be arranged if you felt so inclined.

On the personal side, we would be delighted if you would stay with us while you are in Boston. As they say in Japan, from whence we have just returned, we would try to make you comfortable in our humble home.

Sincerely,

Ruth Sager  
Professor of Cellular Genetics

*Dear Ruth:  
It's very nice to hear from you. Let me know you did in mind & I will let you know when there's a good opportunity.*
